## SUMMARY

Results-driven Engineering Professional with expertise in optimizing project outcomes through strategic project management. Seeking a challenging role to apply technical knowledge and drive engineering success.

## PROJECTS

RLegisight AI—AI-Powered Legal Assistant
- Developed an AI-based tool to summarize contracts, explain clauses, and answer legal queries using LangChain, GPT, and Pinecone.
- Improved document accessibility by enabling simplified clause interpretation and multilingual query support.
- Tech Stack: Python, LangChain, GPT, Pinecone, React

Automated Tax Filing System
- Built a system to categorize and filter tax-related data for accurate filing and compliance.
- Implemented logic to identify tax slabs, deductions, and exemptions, reducing manual errors.
- Tech Stack: Python, Pandas, SQL, Excel

## EDUCATION

**Bachelor of Techonology-Computer science Engineering**          **Aug 2023 - Present**
SRM Institute of science and technology - CGPA:9.13

**Higher Secondary - Computer Science with Mathematics**          **June 2021-May 2023**
Sri jayendra golden jubilee school,Kanchipuram - percentage:80.6

## SKILLS

- **Technical Skills:** Communication, Teamwork, Adaptability, and Rapid Learning
- **Languages:** English and Tamil
- **Certifications:** Machine Learning – Rinex, Digital Business Skills – HP LIFE
- **Programming language:** Python, c, Java, MySQL, and JavaScript
- **Library and framework:** React, node, Express, and tailwind css
- **Tools:** MySQL, PostgreSQL, MongoDB, Git, GitHub and Postman API
